“ *One thing I will Never forget about My Grandpa is Him and Grandma taking Me Fishing and Camping with them and , when he took me to Catch My First King Salmon it weighed 38.6 lb it was so big his head fell off when I tried waiting it on the dock . I'm going to miss him he was the only one who wanted to listen to me when no one else did, when everyone else wouldn't pull their head out of their ass . . .*
