“ *To Grant, Will and Family,  
What heartbreaking news to see this obituary for Marshall, and especially today being his birthday. We are old friends starting from his Beachwood Forest days and for over 40 years. You surely heard your dad speak of Joe and Gary before ... and sadly, Gary has also passed away. Those three guys were all born in 1951 and truly enjoyed working together and starting their careers in the lumber industry. We have always thought of Marshall on his birthday because it's the day before Joe's. They celebrated together many times and today our thoughts are full of those fun days when we were all so young. Gary played the piano at Marshall & Jan's lovely Laguna Beach wedding and it's just one of our many treasured memories. Sadly, we lost touch with Marshall after his Sierra Pine days, and was not even aware he had become ill. There are so many things that could be written, and it's with true affection to send this condolence in memory of such a fun loving, personable man ... he was very special to us.  
Godspeed dear Marshall!  
With loving thoughts,  
Emma, Joe & Rachel*

“ I am saddened to find out my best friend in high school has passed away. He and I shared many laughs and experiences while in school. He and I were members of a 5 person posse. When one of the guys got into some legal trouble and was offered 2 options for his future he chose the Army and 5 days after graduation 3 of our 5 went, one of which was Marshall.

He and I had contact when he returned to civilian life. I saw him for his surprise 40th birthday party and the last time was for his mother's funeral.

Rest in Peace Marshall and may GOD BLESS each of your loved ones that you left behind. Dave
