“ I was honored to have served as Wendy's Principal at Lakewood High School and then worked alongside her in the Counseling Office at Poly High School and also at Cabrillo High School before retiring. She was a huge source of positive energy and efficiency, especially taking the time to explain things for parents and family in Spanish as they navigated our school system. We would encourage one another to "clock out" on time and return to our families by saying, "Es tiempo para sopa?" (Is it time for soup?). She always carried a smile in spite of her fight with cancer. Her pride was her love and joy seeing her children grow up and succeed in life. This world was so fortunate to have her for the time she was allowed to remain. I consider myself most honored to have known her and appreciate her kind warmth in person.

My sincerest condolences to the family...She will be missed dearly.
